

The PumpTubeConnector

Pump Transfer Tube Connector for all 1" M-NPT Equipment

Part No. DM125-1RCA/S6 ... 316 stainless

The DRUM-MATES PumpTubeConnector provides a 1" Npt female threading point on your pump tube for any 1" Npt male connections coming from dispensing hose, flow-meters, valves, or other equipment. The PumpTubeConnector attaches directly to any pump tube with a 1.25" female Npt outflow port. This high quality component is made from 316 stainless steel for a wide range of chemical applications and long service life.

It is well suited for providing an additional level of pump applications flexibility for most liquid transfer applications, including the use of flexible braided stainless steel, Teflon lined hoses for extreme duty applications.

PumpTubeConnector Specifications

Part Code:	DM125-1RCA/S6
Description:	TubeConnector , for your pump tube dispensing port
Specification:	1.25" F-NPT to 1.0" F-NPT
MOC:	316 stainless steel
Weight:	9.5 oz. each
