

The Bung TubeGuard™

2" Npt Tube Protection for Inserting Bung Tube Equipment

For safely mounting & using tubes or equipment in drum bung holes

Features & Benefits

- Guards pump tubes & tubular equipment
- Helps prevent equipment damage, downtime
- Also helps protect 2" Npt drum bung threads
- Bore sizes: To specification - 1/4" to 1.75"
- Optional hand clamp secures tube in bung
- MOC's: Polypropylene or 316 stainless steel
- Hex feature ensures secure bung tightening

Use The TubeGUARD™ for

- ◆ **Safety & Ease of Use**...permits safe, stable and easy tube transfer and mounting. Available with TubeLock hand clamps.
- ◆ **Save Down-time**...prolongs the working life of plastic or metal tubular equipment.
- ◆ **Save Money**...helps prevent tube, equipment or drum replacement after thread damage.
- ◆ **Lower Maintenance & Replacement**...stops bung thread-wear on plastic or steel tubes, equipment or containers due to vibration and repeat use.
- ◆ **Versatility**... TubeGUARDs™ are suitable for most industrial or sanitary equipment applications covering a very wide liquid compatibility range.

TubeGuard mounted with a ThreadGuard to protect both the drum and the adapter from accidental cross threading.

TubeGUARD™ for mounting equipment in 2" Npt bungs of drums, IBC's or tanks.

P# DM-55BTA/PP __ Series, 2" male-NPT x tube bore ID to specification, polypropylene

P# DM-55BTA/SS __ Series, 2" male-NPT x tube bore ID to specification, stainless steel

Accessories

P# DM-55BCF Series Bung adapters for using TubeGuard in coarse thread bungholes.

P# DM-55BTG Series Bung ThreadGuards for protecting drum & equipment bung threads.
