Tote Filling Solutions

For Quick Tote or Container Filling

ToteFillers™ are excellent for safe, fast, economical, quick-connect liquid filling of single or multiple IBC's (totes) in virtually any configuration, whether floor, rack or stack stored.

Used for gravity feed or pressure pumped liquid transfer, the 2" ID *ToteFillers™* provides safe, accurate, liquid transfer in a short time.

A 2" lever handle ball valve (not shown) provides accurate flow control.

Easily mounted in minutes into the drum lid bunghole or using the quick-mount Bulkhead Fitting, the system moves thin to viscous liquids from railway car, tanker truck, reservoir, day tank or drums into virtually any drum, as long as the liquid is compatible with the materials of construction, stainless steel, polypropylene, HDPE, Buna, EPDM.

ToteFiller™ Mounts in Minutes
